ROBUST

COLLAPSIBLE DOG CRATES

At ROBUST EUROPE, we believe functionality goes hand in hand with design and quality.

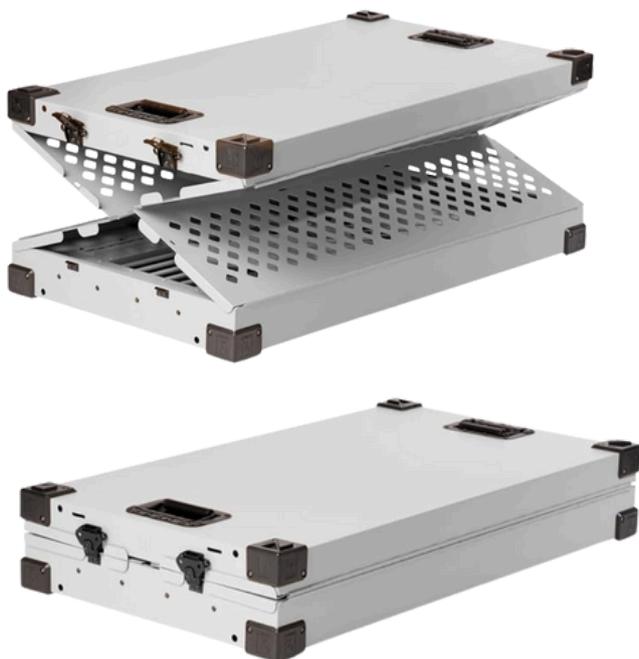

That's why our range of folding aluminum dog crates is designed for people who demand practical, durable, well-built solutions.

From transport by car or plane to use at home or in professional settings, every model is built to last, streamline daily life, and provide real comfort and safety for dogs and the people who care for them.

With distribution across Europe, we put our experience at the service of those seeking reliable, versatile products with a clean, professional look.

ROBUST. More than folding dog crates. A way of doing things right.

COLLAPSIBLE DOG CRATES

Anti-stress door cover

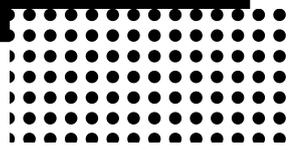

The Anti-Stress Door Cover is an accessory that partially covers the door, reducing visibility and outside stimuli. This helps calm the dog in stressful or anxious situations such as transport, clinics, or noisy environments.

Beyond improving comfort, it is a key element for meeting IATA requirements, as it creates a more enclosed, controlled environment as required for air transport of pets.

Available in all sizes and compatible with all ROBUST models, it installs in seconds and can be combined with other accessories such as the wheeled trolley or the fan.

ROBUST
COLLAPSIBLE DOG CRATES

Grooming Set

The ROBUST Grooming Set is designed to turn the crate into a practical, safe workstation for shows, events, and grooming sessions.

Includes:

- ◆ Non-slip top mat: Made from high-grip technical material, it converts the top surface into a secure platform for brushing, inspection, or work.
- ◆ Folding articulated arm with leash: Fixed to the crate frame to safely secure the dog while working on the crate. Height-adjustable, foldable, and easy to remove.

Perfect for groomers, exhibitors, and professionals who need a stable, practical setup that's quick to assemble anywhere.

ROBUST
COLLAPSIBLE DOG CRATES

Trolley

The ROBUST Trolley is designed to make moving crates easy in any environment—especially at shows, clinics, and professional settings where mobility and speed are essential.

Features:

- ◆ Two braked wheels for stability when stationary.
- ◆ Lightweight yet sturdy frame made from high-quality materials.
- ◆ Stacking-compatible design that lets you move multiple crates easily and safely.

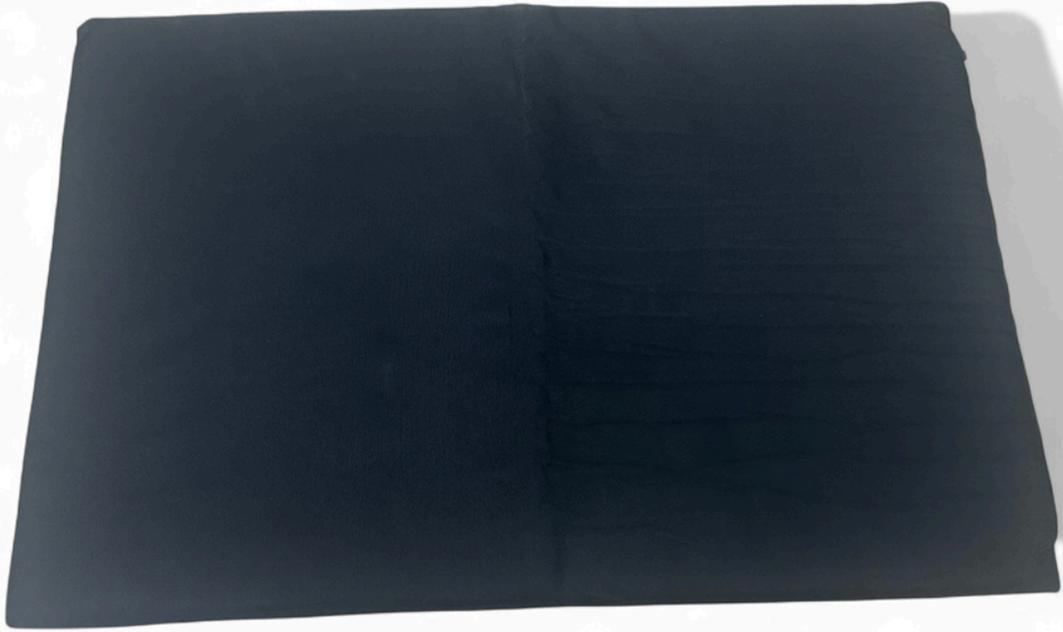

Fan 12v

Quiet, efficient, and low power consumption; improves interior ventilation during transport or in hot weather and operates from a 12V car socket (cigarette lighter) or 220V mains using the included transformer.

Confort Pad

A padded, washable, custom-fit bed that provides extra comfort and thermal insulation for the dog during transport or rest.

Technical Specifications — ROBUST Folding Crates

Materials & Structure

- High-strength anodized aluminum frame.
- Powder-coat finish.
- High-quality metal latches, rivets, and hinges.

Usable Dimensions

- Available in sizes M, L, XL, and XXL
- The usable interior space is 1 cm smaller than the exterior dimensions

Ventilation & Temperature

- Vent grilles positioned to promote airflow
- Aluminum dissipates heat better than many materials
- Avoid prolonged direct sun exposure

Cleaning & Maintenance

- Clean with warm water and mild soap
- Avoid abrasives, bleach, or harsh solvents
- May be disinfected with mild aluminum-safe solutions
- Dry thoroughly before folding or storage
- Remove the interior bed and accessories before cleaning

Assembly, Transport & Storage

- Tool-free quick-folding system
- Sets up and folds down in seconds
- Stackable crates (same size only)
- Compatible with the trolley and other ROBUST accessories

Recommended Use

- Safe transport of pets in car, airplane, van, or trailer
- Exhibitors, private owners, clinics, training centers, and breeders
- Home use as a safe resting space
- Suitable for dogs of any size (depending on crate size)

✈️ Air Transport (IATA Regulations)

- With the Anti-Stress Door Cover installed, ROBUST crates meet the structural requirements set by IATA for air transport of pets
- Check with your airline for specific requirements (trays, labels, water cup, etc.)

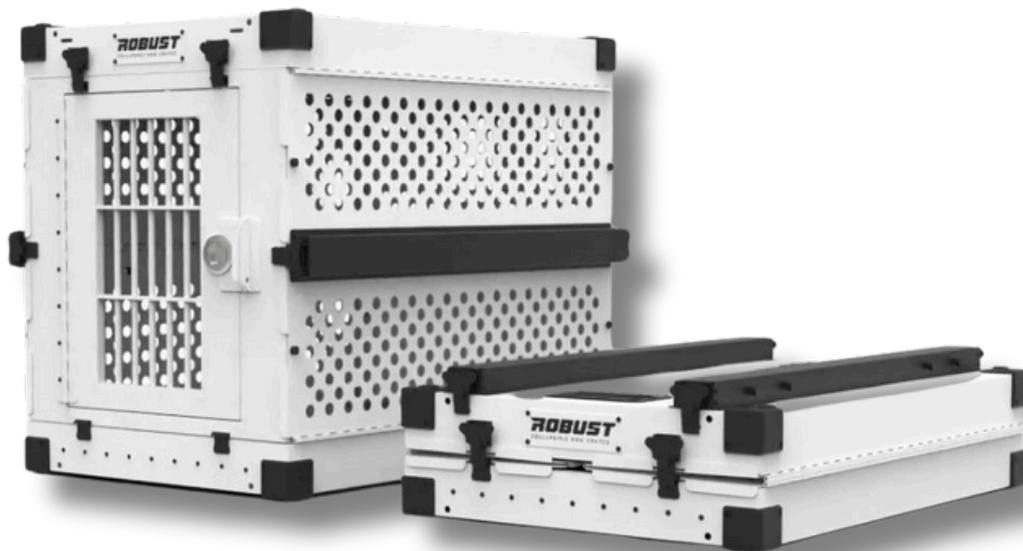

🛡️ Warranty

✅ For Consumers (B2C)

All our products come with a 3-year legal warranty under EU law, covering manufacturing defects and lack of conformity existing from the outset.

🟡 For Professional Customers (B2B)

The commercial warranty for professional use is 1 year, applicable to intensive use (shows, clinics, frequent transport). Please consult the specific terms for distributors and companies.
